Tech Industry Alliance Skillnet

Tech Industry Alliance Skillnet is a government-funded learning network that provides subsidised training solutions for the Tech sector in the South-West region. Tech Industry Alliance Skillnet address current and future skills needs by providing a range of services including subsidised upskilling solutions across training design, research and advisory. Tech Industry Alliance Skillnet support's the full spectrum of IT technology

domains, as well as overall business functions including management development. Tech Industry Alliance Skillnet mission is to build on our unique experience and create a powerful community where knowledge, learning and research can evolve and be shared with you.

Tech Industry Alliance Flagship Events

TechFest

Tech Industry Alliance's TechFest is a highly engaging technology conference which includes keynotes and expert speakers, interactive panel discussions, workshops, networking opportunities and an exhibition area. TechFest is our annual flagship tech conference showcasing legends, luminaries and thought leaders on everything tech and future forward.

Leaders Awards

The annual Tech Industry Alliance Leaders Awards recognises the best of South-West Ireland's thriving tech and tech – enabled community which includes renowned multinationals, disruptive start-ups emerging companies. The Leaders Awards recognise all those who have gone further than most in the use of technology in their respective organisations and are playing a vital role in driving and developing the tech ecosystem in the region.

Member Testimonials

Tech Industry Alliance is playing a crucial role in fostering a dynamic and interconnected business environment in the South West. By bringing together diverse stakeholders from industry, academia, and government, Tech Industry Alliance is not only driving growth for individual companies but also contributing to the overall development of the region. This collaborative ecosystem of shared learning and innovation is indeed essential for future-proofing businesses.

★★★★★ – Catherine Evans
RDI Collaboration Manager, Fexco

At our 3-year anniversary here in Ireland for NetApp we are so appreciative of the partnership, support and guidance that we have received from Tech Industry Alliance. This has been instrumental in landing our organisation into the technical ecosystem that exists in the local market. Supporting us through branding, networking opportunities, education on programs and initiatives TIA have further enabled us to showcase the USP of investing and building in Ireland. TIA awards 2024 recognised NetApp as the Diversity, Inclusion and Social impact leader, again elevating our brand locally and globally as an employer of choice.
